

I respectfully request you to reject NAB's petition 04-160. I support XM radio and am disturbed at the attempt of broadcasters to quash XM Instant Traffic and Weather. They do a great service, and in an emergency can mean the difference between life and death. And we all know, the possibility for emergency is much greater now than before. This service could be of great public service and could save thousands of lives.

Thank you,
Cindy Rohde
